Emigration to Hayti.

Hayti is now receiving a valuable accession to its population in immigrants from Louisiana, whom the harsh legislation of that State has driven to seek an asylum a preference for Lincoln. A fellow passand a home elsewhere. The free colored population of Louisiana, taken as a whole, is very superior to the same class in any other slave, and, we might even perhaps say, in any free State. Louisiana, having been originally a French colony, the white fathers of colored children did no; consider themselves as wholly exempt from the obligations of paternity; but on the contrary, the fashion prevailed of giving to such children, at least in the case of wealthy planters, not merely freedom, but often a degree of education and a moderate inheritance. It thus happens that among the free colored people of Louisiana are a cer- business. MISCELLANEOUS.

The AMALGANATION OF LANGUAGES.—There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the west Cechallo, which is from the Greek, sidedly in. "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will some be used in a more general way, and the word capatile will become as common as Electrotype and many others whose distinction as foreign words has been worn away by common usage until they seem "native and to the manor born."

'ardly Realized.

HI 'ad 'n 'orrible 'eadache this bafternoon, hand I step ped into the hapothecuries hand says hi to the man, "Can you heave me of an 'eadacher" "Pocait hache 'ard." says 'e. "Herccedingly," stys hi, band upon that 'e gave me a Cephalic Fill, hand pon me oner it cured me so quick chat I 'ardly realized hi 'ad ad an 'endache.

Headache is the favorite sign by which nature makes known any deviation wha ever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till to late to be remedied; and its inductions should never be nelected. Beadaches may be classified under two names, vir. Symptomatic and Hilopathic. Symptomatic Headche is exceedingly common and is, the precision of a great variety of diseases, among which are Apoplent, four Rheumatian, and all febrie diseases disease. In its nervous form it is sympathetic of disease of the stonach constituting sich acadeche, of worms, constipation and other disorders of the bowels, as renal and utrine affections. Bisease of the heart are very frequently attended with Headaches; Anamia and plethora are also diffections which frequently occasion headache.—Idiopathic Headache is also very common, but neutily disting vished by the name of nervous acadeak, sometimes coming on suddenly in a state of apparently sound health amp prostrating at once the mental and physical energies, and in other instances it come on slowly, heralded by depression of spirits or accritive of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes proveking venniting; under this class may also be named Neuradaic.

For the treatment of either class of Headache the Cephalic Fills have been found a sure and safe remedy, reliesing the most acute gains in a few minutes, and by its subtle power eradicating the diseases of which illeviache he the uncerting index.

Bringer.—Missus wants you to send her a box of Cephalic Glue, no a bottle of of Prepared Pilis,—but I'm thinking that's not just it maithor; but perhaps ye'll be afther knowing what it is. Ye see she's might deal and gone with the Sick Headache, and wants some more of

Constipation or Costiveness. No one of the 'many ills flesh is held to' is so preva-ent, so little understood, and so much neglected as losticeness. Often originating in carelessaers, or seden-ary habits; it is regarded as a slight diseaser of too tary hables; It is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the procursor and companion of many of the most dangerous diseases, and unless early cradicated it will bring be suffere to an untimely 'grave. Among the lighter evils of which costiveness is usual attendant are Headache. Colic, Rheumatism, Foul Breath, Piles and others of like antural while a train of frightful diseases such as Mallguart Fevers, Abcesses, Bysentary, Diarrices, Dy spopeta, Apoplexy, Epilepsy, Paralysis, Hysteria Hypochandriasis, Melancholy and Insunity, Gratin-licate their presence in the system by this alarming symtom. Not unfrequently the diseases named originate in Constitution, but take an independent existence unless the cause is chadicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever, it occurs, and no

ceire immediate attention whenever. It occars, and a person should neglect to get a box of Cephalic Filts o the first appearance of the complaint, as their timel use will expel the lossifuous approaches of disease an distroy this dangerous foe to human life.

A Real Blessing.

Physician—Well, Mrs. Jones, how is that leadache?
Mrs. Jones—Gonel Doctor, all gonel the pill you sent

send more so that I can have them handy.
Physician—You can get them at any Droggists. Call

Mrs. Jones—I shall send for a box directly, and shall
tell all my suffering friends, for they are a real bitsing.

THEYET MILLIONS OF DOLLARS SAVED .- Mr. Spaiding THENTY MILLIONS OF DOLLARS SAYED.—Mr. Spalding has sold two millions of bottles of his celebrated frequenced Glue and it is est mated that each bottle saves at least ten dellars worth of broken furniture, thus making an aggregate of twenty willions of dollars reclaimed from tobul loss by this valuable lavention. Having made his Glue a touschold word, he now proposes to do the world still greater service by curing all the sching heads with his Cepbulle Fills, and it they are as pood as his Glue, Headaches will vanish away like snow in July.

ty over excitement, and the mental care and as xiety incident to close attention to be business or study,
are among the numerous causes of Nerrous Headacht.
The disordered state of mind and body incident to it
distressing complaint is a fatal blow to all energy and
ambition. Sufferers by this disorder can always obtain
speedy relief from these distressing attacks by using one
of the Cephalic Pills whenever the symptoms appear.
It quiets the overtacked brain, and soothes the strained
and jacring nerves, and relax as the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

FACT WORTH K NOWING.—Stating's Cephalic Fills as a certain cure for Sick Headache, Billious Headache, Netrous Headache, Costiveness and General D billity.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cophalic Pill for the relief Headache and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benedits will be experienced by suffering humanity long after their discoverers are forgotten.

IF Did you ever have the Sick Headache? Do you remember the throbbing temples, the fevered brow, the lostling and disgustat the sight of food. How totall unfit you were for pleasure, conversation or study. On of the Cephalic Fills would have relieved you from all the suffering which you then experienced. For this and other purposes you should alwars have a box of them on hand to use as occasion requires.
